UPPER PLATFORM

In this issue, the upper platform of the Premium Base is attached to the outer edge.

NOTE: The appearance of the parts shown here may be slightly different from the parts delivered with the issue.

Parts with this issue

01 Upper platform

02 LED screen A

03 LED screen B x 4

04 LED screen C

05 Protector D

06 Protector E

Screws N x 8

01

Remove all screens and protectors.

01

STEP 1

Take platform 01 and remove the screens 02, 03, and 04 and the protectors 05 and 06. These parts are pre-assembled in the packaging.

01

Upper part

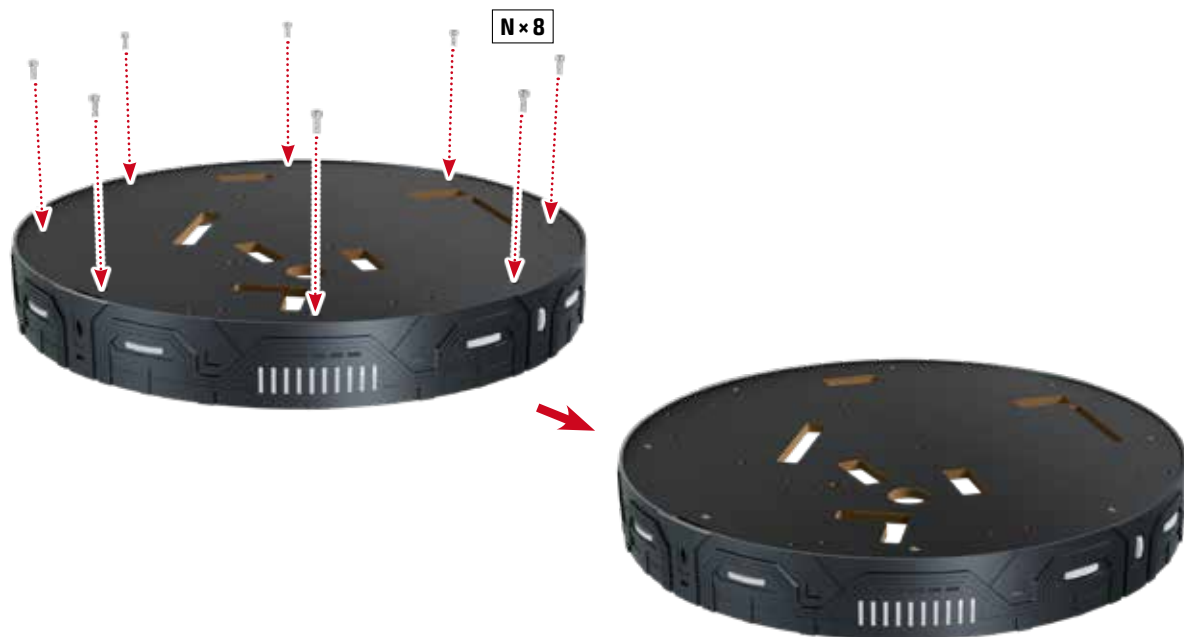

Lower part

Issue 4

STEP 2

Retrieve the outer edge of the base from the previous issue and position the platform as shown. Note that platform 01 has a notch (circled) that engages with a tab (circled) on the outer edge. Push platform 01 into place.

PREMIUM BASE ASSEMBLY GUIDE 5

STEP 3

Fasten the platform to the outer edge with eight type N screws, tightening them with the M4 Allen key.

RESULT

Save the six LED screens for use in future assembly stages.

02

03 x 4

04

These two parts are used to protect holes in the platform during shipping. They can be kept or discarded, but are not used in the assembly.

05

06

The upper platform of the premium base is now attached to the outer edge.
Keep the assembled base safe from knocks and scratches along with LED screens 02, 03 (x 4) and 04.
